

July 2, 1976

STASER:

When Secretary Reed was in here on June 30th, he said he wasn't eager to press on the F-16 full funding unless it was part of an overall package. We talked legislative strategy and he gave me a memorandum which I have sent to Brehm. He wanted to know what our plans were on the Mark XII-A. I told him to get some paper moving. He also asked about deploying the Minuteman III. I told him to get some papers so that Wade can focus on those. We talked about how he was getting Plummer cleared to stay.
