MEMO TO ALAN WOODS ✓  
BILL GREENER

I'd like to think about establishing a NATO Corridor here in the Pentagon that we could dedicate sometime in two or three months. We might consider having the flags of the NATO countries, some photographs of the NATO Council meetings, some high points from NATO's history. Possibly the photographs of the heads of government of the NATO countries and the Ministers of Defense of the Nato countries, and then some memorabilia. I think it ought to be a big one and a nice one and one that we dedicate with a formal opening and have Secretary Luns here. Come up with some kind of proposal and see me.

*John*
