ALAN

Get Dick Wiley or the appropriate person on top of this question of Senator Bentson and the House Committee report of Ray's concerning selling U.S. Military arms for drugs along the Mexican border. Apparently there are some hundred documented instances, both military and civilian. Make sure we've got a good cooperative relationship with DEA and the AG on this. Peter Benginger called me about it, he's a good friend and he just wanted me to be aware of it.
