STASER

- ① Have Brehm start pulling together information that shows what the '77 budget will do in terms of working off backlogs on readiness, spareparts and all of that so we can show them some progress.
- ② And I also want to focus on possible reprogramming to further beef up the conventional general purposes side and you ought to put that down as a target and we ought to be thinking about that in the next 30 days.

5/19 ① and suggestion
of ② talked to ASD(LA)
② Primary to PGE
