

July 8, 1976

I'd like a piece of paper about a couple of weeks before any major exercise like this one that's going to take place with the Latin-American and Caribbean nations later this month. Just on a regular basis. I'd like to have a sense of how many ships, what they are going to be doing, what the dates are, where they are going to be going, what other countries are going to be participating and so forth.
