STASER: *msh*

✓ Stay on top of what we are doing to develop an anti-satellite capability and a defense against a Soviet anti-satellite capability. The President is very interested in it.

Who in this building is in charge or in the intelligence community who is in charge with seeing that we have the proper defensive capability or offensive capability with respect to our intelligence gathering satellite and our command and control satellites.

5/11 Talked with DS2  
— He insists that getting on with Intel reorg is Key

Done
