

July 8, 1976

STASER:

We ought to review again the status of our evacuation capability in Lebanon and see if we want to allow those amfibis to leave Kithra and go into Sycly so they can get some leave and upkeep. I probably ought to bring that up with the President tomorrow morning.

There was one other thing I need and that is a photograph and a fairly good biog on Bernie Rogers to give to the President tomorrow morning and talk to him about. Make sure we have those tonight.
