STASER:

I think we are going to have to get me an <sup>OPLAN</sup> ~~opt-plan~~ and get me a <sup>CONPLAN</sup> ~~con-~~  
~~plan~~ and let me take them over to the President and show them to him  
and get a piece of paper that details about how many man hours of  
work it takes to prepare one and the fact that the leaks increase  
with <sup>OPLANS</sup> ~~opt-plans~~ because hundreds of people have to be involved, if  
that's true, and that you can't do either one with any degree of  
focus until you know what your policy is and what your aims are  
and if you know what your policy is, you sure as hell ought to have a  
record of trying to implement your policy through non military means before  
the fact and in most case we don't. Let's get a piece of paper worked  
up on that sometime by Friday.

4/30 Train tasked
