MEMORANDUM FOR:

STASER HOLCOMB

When LeGere was in on January 7, he I think, properly suggested that we should pulse ISA for a battle plan on how they are going to handle AWACs. I hope they have got some approach that's not going to wait until the last minute when it's going to be all gummed up.

He also suggested that we keep our finger on progress on the theater nuclear force paper.

*2/24 Discussed*  
*2/27 Follow-up memo.*

*Done*
