

14 DECEMBER 1976

STASER:

*Tasked  
ISA*

Who is handling the perspective visit to Washington in January of Winston Churchill? Get McAuliffe involved in it, I guess. I'd like to see he gets the Hughes briefing, Currie briefing, and a base tour if he wants one. He has already seen SAC and NORAD and Langley. I also think I may like to have a dinner for him in January. Have someone see me about that this week. I might like to develop a guest list once we know some dates.

*Tasked  
ISA*

Winston Churchill had the impression that we had some stocks available in the United States of tanks that could go to Europe for stocks -- that we keep a large number stateside that aren't even needed for training here. Is that true? Have someone check into it.

*Done*
